EXPERIENCES

AI Training Specialist / Prompt Engineer

Oct. 2024 – Aug. 2025

Outlier AI

Virtual

- Trained next generation LLMs to improve problem solving capabilities in Math, Physics & Programming (Python, C, C++)
- Gained practical experience in model training via RLHF

Software Engineering Job Simulation

Mar. 2025 – Jul. 2025

Electronic Arts (Forage)

Virtual

- Proposed and developed new features for *The Sims 4* using OOP, including a game object class to improve game logic and player interaction.
- Refined the inventory system with OOP methods, enhancing scalability and modularity

Front-End Engineering Job Simulation

Jul. 2025

Skyscanner (Forage)

Virtual

- Built a web application using Skyscanner's Backpack design system, focusing on clean, accessible UI.
- Contributed to the full front-end development using React, JSX, and CSS—responsible for implementing key components, layout structure, and ensuring responsive design across devices..

EDUCATION

IE University

Expected May 2027

Bachelor in Computer Science & AI

Madrid

- **Current GPA:** 8.1

London School of Economics & Political Science (LSE) University

Jun. 2025 – Jul. 2025

Summer School – Machine Learning in Practice Course

London

- **ML-Powered Web App – Full Stack Project:** Built a full-stack, cloud-hosted web application in under 3 weeks to predict computer prices based on user inputs (e.g., RAM, screen size). Integrated a Python-based ML model (scikit-learn) with a frontend UI via cloud APIs.

Hastings School

Sep. 2007 – Jun. 2023

A-Levels

Madrid

- **Equivalent to an overall grade of A:** Spanish (A*), Mathematics (A), Computer Science (B), French (B)

GCSE

- 3 A*s (Math, Physics, French), 5 As (Computer Science, Business, Physical Education English Literature, English Language).
- Average of 9 in Spanish Curriculum Language, Literature, Geography and History

Achievements

- **President of Junior Leadership Team:** Led initiatives to improve school life, raising over €5,000 through charity and school events. Developed leadership, event planning, team coordination, and problem-solving skills.
- **Graduation Honors – Thinking Award:** Recognized for excellence in critical thinking and problem-solving skills at graduation
- **Founder – ML & Computer Science Club:** Created and led a tech club focused on machine learning and CS; organized coding sessions and fostered peer learning
- **UK Math Trust:** 3 Gold and 1 Silver certificates over 4 years, honing logical thinking and problem-solving skills.

EXTRACURRICULAR

- **Founder – Independent Clothing Brand (Age 15):** Designed and sold apparel via Instagram; handled branding, sourcing, and customer relations. Earned €600+ profit and gained entrepreneurial, creative, and business skills.
- **Football Captain – CD Canillas:** Captained an amateur-level team for 8 years; developed leadership, teamwork, strategic thinking, and resilience in a competitive setting.)
- **Private Tutor – Math, Physics, and Programming:** Tutored students of various ages; strengthened explanation, adaptability, and mentoring skills while reinforcing deep subject mastery.
- **Completed Kumon Program (2 Years Ahead of Average):** Demonstrated self-discipline, consistency, and independent problem-solving through accelerated completion of Math and Reading levels.
- **Tennis Instructor:** Taught private and group lessons, improving students' technique and confidence while developing communication, patience, and coaching skills.
